Approve Plans and Specifications and Authorize Ad for Bid for 2021 Street Improvements Project CP 21-1

BACKGROUND INFORMATION:

The Engineering Department and our consultant, SEH, Inc. have completed the plans and specifications for this year's street improvement project. The 2021 Street Improvements Project includes reconstruction of Moreland Avenue from Delaware Avenue to Robert Street. This project will be formally advertised and has a bid opening date of February 4, 2021. Work will begin in May and be completed by November 2021.

FISCAL IMPACT:

The estimated construction cost for Moreland Avenue is \$4,465,366. St. Paul Regional Water Services (SPRWS) will be funding about \$1M of that amount based on their watermain replacement. The remaining construction funding will come from state aid, assessments, the street improvement fund (sales tax) and the sidewalk improvement fund.

STAFF RECOMMENDATION:

Staff recommends that the City Council approve the attached resolution approving plans and specifications and authorizing the ad for bid for the 2021 Street Improvements Project 21-1.
