

TO: Environmental Committee
FROM: Assistant Parks & Rec Director
DATE: January 6, 2021
SUBJECT: Review Boulevard Tree List

BACKGROUND INFORMATION:

The City's current boulevard tree planting ordinance, as well as the tree planting list were developed by and recommended to Council from this committee. Since it was adopted in 2008, many things have changed in the City regarding boulevard trees, including Emerald Ash Borer invading the City. Ash trees are currently on the list, even though they are no longer planted. Staff felt it would be good to review and update this list for recommendation to the City Council.

STAFF RECOMMENDATION:

Review the boulevard tree planting list. Make changes and recommendations for adoption by the City Council.
