List your past and present civic activities or memberships which may be helpful to this committee.*

I currently serve on the TriDistrict Advisory Council for ISD197 and have been involved with numerous local political campaigns.

List two or three goals that you would like to see accomplished during your term on a commission.*

1. Make our city a more equitable place to live and thrive for all residents. 2. Make West St. Paul a more prominent and sought-after place to live for younger families from around the metro area.

How did you become interested in serving on a committee?*

As a brand new resident to West St Paul (only coming from down the road in St. Paul!), I want to get involved in our new "forever" community and make the best place it can be - for our kids, and for everyone. I have enjoyed getting to know our city, city leaders, and local government priorities, and want to contribute in moving the city forward.

Employment / Job Title*

Teacher (Heritage E-STEM Magnet School)

Employer Name & Address*

West St. Paul Public Schools

List your past and present civic activities or memberships which may be helpful to this committee.*

I currently reside and teach in WSP. I am a proud community member with a passion for advocating for those without the means or desire. I engage critically in conversation and hope to better my town at every turn. I am a steward for the environment with a knack for engaging in conversation around difficult topics, especially when they contribute to the greater whole of the community. I am a proud resident of WSP (the best of all the St. Paul's) and I hope to further my engagement in a more formal avenue through the Environmental/Green Committee and/or the Parks/Rec Advisory Board.

List two or three goals that you would like to see accomplished during your term on a commission.*

I would like to see better representation in WSP. Given my age (26), demographic (LGBT+), and interests (chicken keeping, pet owner, hiker, cyclist, gardener), I can add a unique perspective to our conversations to continuously strive for excellence in WSP. I would like to see better representation in the decision-making process through being a spokesperson for those who choose not to pursue a formal path to share ideas and better the community. In addition, I would like to see our city work to eliminate the microaggressions many of my community members encounter making WSP a difficult place to live.

How did you become interested in serving on a committee?*

I became interested to help shape and represent my community during this past election cycle. Perhaps I will run for elected office in the future, but beginning the conversation and change at the most local level will be the most advantageous for myself and those in my community. I worked to rewrite curriculum in a neighboring school district and that process encouraged me to attend graduate school. I feel serving on a committee could help me give back to the community as so many have done before me. I look forward to hearing your response. Please do not hesitate to reach out for further information.

Employment / Job Title*

eLearning Developer and Instructional Designer

Employer Name & Address*

MN Department of Human Services, 540 Cedar Street, St Paul, MN 55101

List your past and present civic activities or memberships which may be helpful to this committee.*

I served on the board of directors for the Germanic American Institute in Saint Paul for 3 years. During that time I helped develop long term plans for a 50 year old organization. Our plans examined the changing face of our organization from a social club to a organization that supports language education and events for people age 3 to 80.

List two or three goals that you would like to see accomplished during your term on a commission.*

Accessibility to plans for the city for more residents. Using videos, short training options to get our message out to a broader sampling of people. I want to see improvements to our infrastructure for all ages.

How did you become interested in serving on a committee?*

I think it is important to be involved in my community and I have a great deal of interest in seeing a reduction in waste and improving our green footprint in our community.
