Dividend and interest income earned

For purposes of this statement, taxability of interest and dividend income has been determined from a US tax reporting perspective. Based upon the residence of the account holder, account type, or product type, some interest and/or dividend payments may not be subject to United States (US) and/or Puerto Rico (PR) income taxes. The client monthly statement is not intended to be used and cannot be relied upon for tax purposes. Clients should refer to the applicable tax reporting forms they receive from UBS annually, such as the Forms 1099 and the Forms 480, for tax reporting information. It is the practice of UBS to file the applicable tax reporting forms with the US Internal Revenue Service and PR Treasury Department, and in such forms accurately classify dividends and/or interest as tax exempt or taxable income. Please consult your individual tax preparer.

Cash

Cash and money balances

Cash and money balances include available cash balances, UBS Bank USA deposit account balances, UBS FDIC Insured Deposit Program Bank deposit account balances, UBS AG Stamford Branch deposit account balances and money market mutual fund sweep balances.

UBS Bank USA and all UBS FDIC Insured Deposit Program Bank deposit account balances are insured by the FDIC up to \$250,000 per depositor per ownership category, but are not protected by SIPC. UBS AG Stamford Branch deposit account balances are not insured by the FDIC and are not protected by SIPC. Money market sweep balances are protected by SIPC but are not insured by the FDIC.

For FDIC insurance purposes, deposit balances include deposit account balances held at UBS Bank USA through the UBS cash sweep programs, Certificates of Deposits and UBS Core Savings. FDIC insurance is calculated by ownership category (e.g., single, joint, retirement, business, trust). As a result, you will need to review your deposit amounts in each ownership category to determine whether your deposit balances are fully insured. For more information, visit www.fdic.gov. Please review this section as well as the "Cash alternatives" and "Fixed income" sections to review the current deposit balances held at UBS Bank USA.

See the *Important information about your statement* at the end of this document for details about those balances.

Money market funds

Money market funds are neither insured nor guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Institutional prime and institutional municipal funds must float their net asset values (NAV) per share to the nearest 1/100th of a cent (e.g., \$1.0000). Government and retail money market funds will continue to transact at a stable \$1.00 net asset value. Although money market funds seek to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in these funds.

Total reinvested is the total of all reinvested dividends. It does not include any cash dividends. It is not a tax lot for the purposes of determining holding periods or cost basis. The shares you receive each time you reinvest dividends become a separate tax lot.

Cost basis is the total purchase cost of the security, including reinvested dividends. The cost basis may need to be adjusted for return of capital payments in order to determine the adjusted cost basis for tax reporting purposes.

Unrealized (tax) gain or loss is the difference between the current value and the cost basis and would generally be your taxable gain or loss if the security was sold on this date. The unrealized (tax) gain or loss may need to be adjusted for return of capital payments in order to determine the realized gain or loss for tax reporting purposes.

Investment return is the current value minus the amount you invested. It does not include shares that are not reflected on your statement, including shares that have been realized as either a gain or a loss. It also does not include cash dividends that were not reinvested.

Certificates of deposit and share certificates

Cost basis has been adjusted for accreted original issue discount (OID) on long-term (more than 1 year) CDs and share certificates. Cost basis has been adjusted automatically for amortization of premium using the constant yield method on long-term (more than 1 year) CDs and share certificates.

CDs are insured by the FDIC up to \$250,000 per depositor per ownership category, but are not protected by SIPC. For FDIC insurance purposes, balances of CDs issued by UBS Bank USA are combined with your other deposit balances held at UBS Bank USA, including deposits through the UBS cash sweep programs and UBS Core Savings.

FDIC insurance is calculated by ownership category (e.g., single, joint, retirement, business, trust). As a result, you will need to review your deposit amounts in each ownership category to determine whether your deposit balances are fully insured. For more information, visit www.fdic.gov. Please review this section as well as the "Cash" and "Cash alternatives" sections to review the current deposit balances held at UBS Bank USA.

Share certificates are NCUA insured up to \$250,000 in principal and accrued and posted dividends per qualifying account and per credit union, in accordance with NCUA rules. Yankee CDs are not insured by FDIC or NCUA.

Municipal securities

Prices are obtained from independent quotation bureaus that use computerized valuation formulas to calculate current values. Actual market values may vary and thus gains/losses may not be accurately reflected. Cost basis has been automatically adjusted for mandatory amortization of bond premium on coupon tax-exempt municipal securities using the constant yield method and for accreted original issue

discount for securities issued at a discount. When original cost basis is displayed, amortization has been done using the constant yield method, otherwise amortization has been done using the straight line method.

Realized gains and losses

The estimated realized gains and losses shown below are not for tax purposes. Please note that gain or loss recognized on the sale or redemption of certain Structured Products, like Contingent Debt Securities, may be ordinary, and not capital, gain or loss. Please check with your tax advisor. To calculate gains and losses, we liquidate the oldest security lot first. This is known as the first-in, first-out or FIFO accounting method. We use this method unless you specified which tax lot to close when you placed your order. This is known as a versus purchases or VSP order. See *Important information about your statement* at the end of this document for more

information. We may not adjust gains and losses for all capital changes. We automatically adjust cost basis for tax-exempt and AMT coupon municipal securities for estimated amortization of bond premiums and for accreted OID for securities issued at a discount. If you requested that UBS adjust cost basis for the bond premium amortization on taxable debt securities then cost basis reflected for these securities has been adjusted. Estimates in the *Unclassified* section can not be classified as short term or long term because information is missing, or the product is one in which the gain/loss calculation is not provided.

Investment objectives

The investment objectives and risk profile are specific to each account and may vary between your accounts. Please advise the Firm promptly in writing of any significant change in your financial situation or investment objectives. For each account held, you choose one of the following investment objectives:

- **Produce Current Income:** Investments seeking the generation of income only.
- **Achieve Capital Appreciation:** Investments seeking growth of principal rather than the generation of income.
- **Produce Combination of Income and Capital Appreciation:** Investments seeking both the generation of income and growth of principal.

Overall risk profiles

- **Conservative:** Seeks to maintain initial principal, with low risk and volatility to the account overall, even if that means the account does not generate significant income or returns and may not keep pace with inflation.
- **Moderate:** Willing to accept some risk to principal and tolerate some volatility to seek higher returns.
- **Aggressive:** Willing to accept high risk to principal and high volatility to seek high returns over time.
- **Investment Eligibility Consideration:** If selected, a portion of the portfolio for that account may include complex strategies, limited liquidity, and greater volatility.

Your assets

You may ask for delivery of fully paid securities at any time. You may receive securities used as loan collateral after paying any balance due on them. Any securities transferred to the Firm during the statement period are listed at market value as of the end of the statement period.

- **Cost basis.** In determining the cost basis of the securities included in this statement, where indicated with the number "1", the Firm has relied on information obtained from other sources, including information from another firm or that you may have provided to your Financial Advisor. The Firm does not independently verify or guarantee the accuracy or validity of any information provided by sources other than the Firm. Although the Firm generally updates this information as it is received, the Firm does not provide any assurances that the information under "Cost basis" and "Unrealized gain/loss" is accurate as of the date of this statement. As such, please do not rely on this information to make purchase or sale decisions, for tax purposes or otherwise. Accounts transferred to the Firm may reflect gain/loss information only for the period of time they are held at the Firm. More historical information can be added by your Financial Advisor.

- **Unrealized gains/losses.** When data is available, estimated unrealized gains/losses are calculated for individual security lots. The transaction data for individual lots may or may not reflect commissions, charges and/or security reorganization events. Dividend and other reinvestment lots and systematic purchase lots are each combined to display one averaged lot. The "Trade date" column presents the original transaction trade date.

Important information about your statement (continued)

- **Callable securities.** Bonds and preferred stock that the issuer calls for early redemption will be selected impartially by lot from among all securities of that issue held in our name or in nominee name for our clients. Call feature information is obtained from third parties and its accuracy is not guaranteed. Other call features may exist which could affect yield; complete information will be provided upon request.
- **Price/value.** Prices displayed may be higher or lower than the price that you would actually receive in the market. Prices are obtained from various third-party sources which we believe to be reliable, but we do not guarantee their accuracy.
 - We generally use the closing price when available or the mean of the bid and ask prices for listed securities and options or only bid prices for OTC securities.
 - Less actively traded securities may be priced using a valuation model or the most recent price we obtained and may not reflect an actual market price or value.
 - Certain positions may show as "price was not available" if we are unable to obtain a price.
 - Deposits or securities denominated in currencies other than U.S. dollars are reflected at the exchange rate as of the statement date.
 - For certain securities trading in non-conforming denominations, price, and quantity (face value) may have been adjusted to facilitate proper valuation.
 - Restricted securities may not be eligible for public sale. The market price of the unrestricted stock of the same issuer as an imputed value for the restricted stock *for purposes of this statement only*. If restricted securities are sold, the value received may be substantially less than the imputed value shown.To obtain current quotations, when available, contact your Financial Advisor.
- **Private investments and structured products.** Private investment securities (including direct participation program and real estate investment trust securities) and structured products are generally highly illiquid. Certain structured products have not been registered with the Securities and Exchange Commission or under any state securities laws. We provide estimated values for informational purposes only. Accuracy is not guaranteed.
 - These values may differ substantially from prices, if any, at which a private investment security or structured product may be bought or sold and do not necessarily represent the value you may receive upon liquidation.
 - Third party estimates of value are as of a certain date and are supplied to the Firm on a regular basis by an independent valuation firm.
 - Issuer, general partner, or sponsor estimated values, if any, are supplied to the Firm by such parties and may be based on different information than third parties' estimated values.
 - Contact your Financial Advisor for additional information regarding the methodology used to determine estimated values and the date of the information that is the basis for the estimates.
 - Third party estimated values may be reflected as "Not priced" if: an independent valuation firm has not supplied or is unable to assign a value; we become aware that a material event has occurred that may call a previously reported value into question; or a value would be highly speculative due to the nature of the security.
- When neither an issuer, general partner or sponsor estimated value nor a third-party estimated value is provided, the value of the security will be different from its purchase price.
- "Distributions to date" may include return of capital, income, or both.
- "Original unit size" represents the initial offering price per unit and may not reflect your cost basis.
- DPP and unlisted REIT securities are not listed on a national securities exchange, and are generally illiquid, and even if they can be sold, the price received may be less than the per share estimated value provided in the account statement.
- **Estimated income, current yields, and rates.** An estimate of annual income is based on current dividend and interest rates, assuming the securities will be held for one year from statement date or until maturity. Actual income and yield might be lower or higher than the estimates. Accuracy of the estimates and continued income are not guaranteed.
 - Estimated annual income and current yield may include a return of principal or capital gains in which case the estimate would be overstated.
 - An estimate of annualized income is based on the last payment made by the issuer and assumes the securities/deposits will be held for one year from the statement date or until maturity.
- **Alternative periodic reporting**
Where permitted, transactions effected pursuant to a periodic plan or an investment company plan, or in shares of certain money market funds are reported on your periodic account statements in lieu of immediate trade confirmations. Additional transaction details that would ordinarily appear on the trade confirmation will be furnished upon written request.
- **Dividend Reinvestment Program (DRIP)**
The price reflected is an average price. You may obtain the actual price from your Financial Advisor. Only whole shares are purchased under DRIP; partial shares will be sold, and the cash will be deposited in your account. The dividend reinvestment price supplied by the issuer may differ from the market price at which the partial shares are sold.
- **Fractional shares/ cash-in-lieu**
If you are entitled to a partial unit as a result of a dividend payment, corporate action, DRIP or otherwise, the Firm will either sell partial units at market price or accept an amount determined by a registered clearing agency, and credit your account.
- **Assets not held by UBS Financial Services.** Certain assets that are not held by the Firm and not within the Firm's possession or control are displayed for your information and convenience only. Positions and values presented are provided by the issuing firm. The Firm is not responsible for this information and does not guarantee its accuracy. These assets are not

protected by SIPC or the Firm's supplemental SIPC coverage.

Revenue sharing and additional compensation.

- In addition to commissions on sales and 12b-1 fees received in connection with the distribution of mutual funds to our clients we and/or our affiliate receive revenue sharing payments from distributors and/or advisors of the mutual funds that we sell. These amounts are based on two different components: (i) the amount of sales by UBS of a particular mutual fund family to our clients; and (ii) the asset value of a particular mutual fund family's shares held at the firm.
- We and our affiliate also receive networking and omnibus processing fees in consideration for transfer agent services that we provide to the mutual funds. These fees generally are paid from investor assets in the mutual fund and are a fixed dollar amount based on the number of accounts at the broker-dealer holding mutual funds of that fund family.
- In addition to commissions received from the purchase and sale of NextShares funds, we and/or our affiliate receive an asset-based revenue sharing payment from NextShares distributors, as well as funding for technology development, training, and education.
- In addition to commissions received in connection with the sale or distribution of annuity contracts and unit investment trust units to our clients, we and/or our affiliate receive revenue sharing compensation from many of the insurance companies underwriting the annuity contracts, affiliates of the insurance companies or sponsors of the unit investment trusts we distribute.
- Our affiliates also receive trading commissions and other compensation from mutual funds and insurance companies whose products we distribute.
- We receive compensation from UBS Bank USA, UBS AG Stamford Branch and non-affiliated banks through our cash sweep programs. This compensation may be a monthly per account fee or may be a percentage of average daily deposit balances.

Commissions and other charges

Information regarding commissions and other charges related to the execution of trades, including option transactions has been included on confirmations previously furnished to you, and will be provided to you promptly on request. In addition to regular account fees, accounts may be subject to maintenance fees, charges for late payment for securities purchases and charges for unpaid amounts in cash accounts. Accounts that are transferred to other institutions may be subject to a transfer fee. If you are engaged in short selling a security, you may incur a charge due to certain borrowing costs for that particular security.

Investment Advisory Program Fees

Program Fees for Investment Advisory Accounts are reflected under **Account Activity This Month**. "Current Quarter Advisory Fee" represents the UBS Advisory Fee and, if applicable, SMA Manager Fees that are charged in advance on the net asset value of the account on the last day of the prior calendar quarter.

The "Prior Quarter Fee Adjustment" is the change (increase or decrease) to the quarterly fee based on the average daily balance of the account for the previous quarter. Additional adjustments to the Advisory Fees for account activity in certain programs ("Pro-rated Quarter Advisory Relocation Charge," "Current Quarter Reallocation Adjustment"), initial fees ("Initial Fee") and account terminations ("Termination Fee") will also be shown. For more information, including details about our billing practices see the Form ADV Brochure at ubs.com/formadv, or contact your Financial Advisor.

Open or "good-till-cancelled" orders

Open buy and sell stop orders are reduced by the amount of dividends or rights on an ex-dividends or ex-rights date unless instructed otherwise by you. You are responsible for orders that are executed due to your failure to cancel existing open orders.
