Action
Approve Cooperative Agreement (CA) with Great River Greening for Garlough/Marthaler Habitat Restoration Project

Background
In 2020 Great River Greening, under the authority of Dakota County, obtained state grant funds for natural resource restoration and enhancement projects within and outside the River to River Greenway Corridor, in the amount of $157,700. Under this Cooperative Agreement with Great River Greening, the City will be the lead on the project and fully fund the $20,000 cost share required by the grant, with Dakota County reimbursing the City per a separate JPA (also being approved today). Restoration work will take place in 2022-2023.

Dakota County and the City desire to enter into a separate JPA for the County and the City to equally share the grant match costs for ecological restoration and enhancement activities for the River to River Regional Greenway within Garlough and Marthaler Parks.
