<b>Action</b>	
Approve a contract with SEH, Inc. for design and construction services of sanitary sewer forcemain 3, City Project 22-2, not to exceed amount of \$46,598.	
<b>Background</b>	
Sanitary sewer forcemain 3 (FM 3) is a 1,278 foot long 6-inch cast iron pipe that was installed in 1966. It has surpassed its useful life and is in need of replacement. This pipe runs from Mendota Road, at Dakota County's Northern Service Center, to a manhole on Crusader Avenue. As part of the current Crusader Avenue reconstruction project, new FM 3 infrastructure is being installed under the pavement. This allows for the 2023 FM 3 tie in to be made south of the new curb. The method of construction will be primarily directional drilling. SEH, Inc. will perform design and construction services for this project. They have included 80 hours of inspection time into the contract.
